Hi Jay,

Seems like fax is the best way to get in touch with you.

My initial inquiry with OCEANIT back in October was regarding the prospect of creating a THC saliva test that could rapidly detect acute cannabis use in the workplace.

With the growing interest in legalizing the recreational use of cannabis in Hawaii I believe that the need for such a test will be increasing.

I know you are all busy with getting FDA approval for your SARS-CoV-2 rapid test, but I was hoping to get an update on my inquiry when you can.

Thanks for your help.

Aloha,
